

QWVA-137-A-2

WR-137, Aluminum, FDP70

Features:

- * Low VSWR
- * High Attenuation Flatness

Applications:

- * Wireless
- * Transmitter
- * Laboratory Test
- * Radar

Electrical

Frequency:	6~7GHz
VSWR:	1.6 max.
Attenuation:	0~30dB@6~6.8GHz 0~28dB@6.8~7GHz
Average Power:	25W

Mechanical

Waveguide Size:	WR-137 (BJ70)
Flange:	FDP70
Material:	Aluminum
Finish:	Conductive oxidation
Paint Color:	Sea gray

Environmental

Operating Temperature:	-40~+85°C
------------------------	-----------

Outline Drawings

(The specific dimensions shall be subject to the final physical product at the factory.)

Unit: mm [in]

Tolerance: $\pm 0.5\text{mm}$ [$\pm 0.02\text{in}$]

How To Order

QWVA-137-A-2

Customization is available upon request.
